

SPECIALIZED PACKAGING FOR ELECTRIC POWER SECTOR

☛ Preliminary technical-economic study to optimize the packaging-logistics process.

☛ Light and strong packaging, savings on transport costs (air, maritime, overland).

☛ Quick and safe assembly and disassembly without tools nor nails.

☛ It may be used per unit, the base can be used for auxiliary transports before closing the box completely for shipping.

☛ Returnable and reusable. If not reused, it does not generate waste for the final customer.

PERSONALIZED STUDY

DISASSEMBLY AND REUSABLE

INTRGRAL PROTECTION

BUILT IN LASHING SYSTEM

☛ Registered built - in lashing system of the packa-ging. It allows fast and efficient fastening of the cargo being integrated into the base itself (straps, ratchets, screws, bands, etc.).

☛ Supply of packaging and auxiliary equipment for an integral protection.

☛ Custom manufacturing.

☛ Once disassembled, it takes up only 20% of its size, reducing storage costs.

☛ ISPM 15 certification for international trade.
