

# SPECIALIZED PACKAGING FOR THE AERONAUTICAL / MARINE / LARGE MACHINERY SECTOR

☛ Specially designed packaging for large volumes and loads.

☛ ISPM 15 certification for international trade.

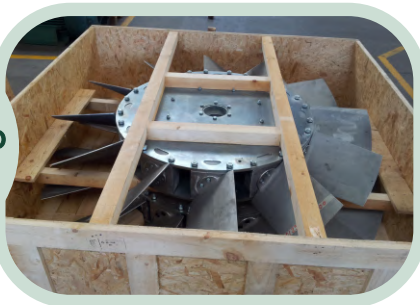

☛ Preliminary study to determine the most efficient packaging solution from a mechanical and economic point of view.

☛ More than 80 years of experience in the conditioning of goods at the customer's premises.

☛ Custom-designed to efficiently support heavy loads.

PERSONALIZED  
STUDY

80+  
YEARS  
OF EXPERIENCE

REMOVABLE  
AND REUSABLE

COMPONENT-BY-  
COMPONENT  
USE

☛ Reinforced reusable packaging study for medium loads (2,500 kg).

☛ Detachable packaging design, facilitates visual inspection of the load during ordinary inspections without breaking or unailing the side/cover.

☛ The base can be used for auxiliary transports before the box is completely closed for shipping.

☛ Once disassembled, it occupies approximately 20% of its size, saving costs in storage and transportation.
